

THE MOST POWERFUL PROFESSIONAL APPLICATIONS

"CALAMITA" Compo Tech co. THE WINNING COMBINATION FOR IMPROVED MAGNETIC FORCE

Compo Tech Co. introduces holding magnets
"CALAMITA": the complete magnets line
Totally customized.

The assemblies, made by a magnetic core glued
or injected into a steel body by modern assembly lines
and first rate machining equipment, are available
in different qualities as Alnico, Neodymium, Ferrite
or Samarium, according to the final application.
The holding magnets "CALAMITA" can provide
up to thirty times the strength of a sole magnet.
making them ideal for many applications.

The power. **Inside.**

Core: Neodymium, Samarium Cobalt, Alnico, Ferrit.

Core 1: **Neodymium**
high performance, not waterproof.

Core 2: **Samarium Cobalt**
performance, Tmax 350 °C, not waterproof.

Core 3: **Alnico**
medium performance, Tmax 500 °C, waterproof.

Core 4: **Ferrit**
low performance, Tmax 200 °C waterproof.

magnets and magnetic fixing systems
for professional applications
with the attractive force of up to 130 Kg

suitable for:

INDUSTRIAL LOCKS

construction industry

industry and furniture

INDUSTRY AND AUTOMATION

signage and revolving lights

Covered is better!

Cover: Resin, Rubber, Stainless steel, Plastic.

RESIN

suitable for interiors,
protects the magnet by the dirty, not waterproof.

RUBBER SCRATCH AND IMPACT RESISTANT

suitable for interiors, eliminates the noise from contact, scratch
resistant, protects the magnet by the dirt, not waterproof.

STAINLESS STEEL (total protection):

suitable for interiors and exteriors,
hermetically protect the magnets, washable.

RUBBER COVER

suitable for interiors, accessory scratch and impact resistant.

PLASTIC COVER

suitable for interiors, accessory scratch and impact resistant.

professional protective cover
suitable for each application
